

Trevor Ramtahal

trevor.ramtahal@gmail.com | <https://www.linkedin.com/in/trevor36348/> | Brampton Ontario, Canada | <https://github.com/trevor36348>

Developer with a Bachelor's Degree in Computer Science and a Post Graduate Certificate in Enterprise Software Development, experienced in building database driven web applications. Detail-oriented professional with strong analytical and technical skills, focused on data management, problem-solving, and process improvement.

WORK EXPERIENCE

Online Data Analyst

Telus Digital | Brampton, Ontario (Remote) | July 2024 – Present

- Evaluated AI-generated outputs using structured review frameworks to ensure correctness and edge case handling.
- Worked within internal tooling systems to categorize, validate and document AI behavior issues.
- Applied technical reasoning and basic coding knowledge to assess model performance across provided data / scenarios.

Web Developer (Capstone Project)

AI2HR | Ottawa, Ontario (Remote) | January 2024 – April 2024

- Collaborated with 3 other developers to enhance and debug errors in a critical application, delivered updates to address sponsor reported issues.
- Enhanced application functionality through updates to user interfaces, localization systems, routing, and server-connected components, improving accessibility and user experience.
- Performed manual testing of UI components to identify usability issues and edge case failures, provided updates when required.
- Prepared and presented weekly progress reports for our sponsor outlining updates, improvements, and completed tasks.

PROJECTS

Full Stack Portfolio Webpage | February 2026 – March 2026

- Full stack portfolio built using Next.js with server side data fetching and back-end API routes.
- Created MongoDB data models / schemas to support dynamic, database driven site content.
- Created server side access functions to query and structure content from the database.
- Implemented slug based routing and dynamic page generation for scalable content presentation.
- Integrated 3rd party email service through a RESTful API route which handles POST requests.
- Responsive, mobile-first UI developed using Tailwind CSS and modular React components, ensuring usability across varying screen sizes and devices.

EDUCATION

Post Graduate Certificate: Enterprise Software Development

Humber Polytechnic | Toronto, Ontario | September 2023 - April 2024

Bachelor of Science – B.Sc., Hons. Computer Science

York University | Toronto, Ontario | September 2018 - August 2022
